

SQL

5.1.3 Pet id #3 (Bo) is listed as being owned by Obama and Bush, which isn't so. Bo was owned by Obama. Barney (Pet id #2) was owned by Bush. Made correction to Person Pet table accordingly.

5.2 Query

Write a SQL statement that will return the name, breed, and age (sorted by age in decreasing order) of any living dogs owned by a person older than 50.

```
SELECT pets.Name, pets.Breed, pets.Age
FROM people
JOIN personpet ON people.id = personpet.PersonId
JOIN pets ON pets.id = personpet.PetId
WHERE people.Age > 50 AND pets.Dead = 0
ORDER BY pets.age DESC;
```

Name	Breed	Age
Bo	Portuguese Water Dog	5
Odie	Beagle	3
Sunny	Portuguese Water Dog	1

5.3 Query

Perform this query and include the results in your SQL submission document.

```
SELECT breed, COUNT(breed) AS cnt
FROM pets
GROUP BY breed
ORDER BY cnt DESC;
```

breed	cnt
Portuguese Water Dog	2
Beagle	2
Great Dane	1
Scottish Terrier	1
Mixed Breed	1
